Prevent Forest Fires — It Pays!

An average of 7,300 acres of woodland are burned over by forest fires in New Hampshire each year destroying many thousand dollars worth of property of all description. It costs many additional thousands of dollars and requires valuable man hours, taken from other essential work, to extinguish them. These losses affect the personal fortunes of the owners, and town and state economies. Everyone loses because of them.

Analysis of fire causes reveals the fact that more than 98 per cent of all forest fires are, consistently, the result of human carelessness and are preventable.

We have been extremely fortunate during the past few years. Favorable fire weather and war time restrictions on travel which kept people off the highways and out of the woods have aided materially in reducing fire risks, keeping fires fewer and fire losses low.

We now face changed conditions. People can travel freely. Their love for travel and the freedom of the woods will bring them out in ever increasing numbers. This will step up the fire risks materially. The accelerated cutting of the war years has resulted in additional thousands of slash acres. These factors, combined with a possible dry season and human carelessness could easily produce a catastrophe. Everyone must, consequently, be on his guard. He should

1. Be careful with fire or when smoking in or near woodlands.

2. Cooperate with the local forest fire warden and his deputies by

- a. Abiding cheerfully with whatever restrictions it may be necessary to impose. They are intended only to be helpful.

- b. Securing permits to burn debris when the ground is not covered with snow.
- c. Seeing that others comply with the requirements.
- d. Promptly coming to the Warden's assistance when needed.

If these few fundamental practices are followed it will be possible to PREVENT a large proportion of FOREST FIRES from starting. That PAYS!

Forest Fire Warden.

SUPERINTENDENT'S REPORT

School Board and Citizens of Grantham:

I am pleased to submit herewith a report on the activities of the Grantham Schools concerning items about which many of you already know. We are all glad Mrs. Walker and Mrs. Pillsbury decided to remain in the village school this year and it is hoped that they will continue for some time. It was decided to transport the children of the seventh and eighth grades of the North Grantham School to the Village. This was suggested in part at the annual district meeting last year.

Before school opened we had engaged three different teachers to teach in the North school. The third one, Mrs. Grace Hannigan, a graduate of the University of New Hampshire and now residing in Hanover, began the work and carried it on for the first sixteen weeks. Since January 6th Mrs. Louis Cote has been teaching there. The children seem to like both Mrs. Hannigan and Mrs. Cote and the work is going on as smoothly as it can with a sudden change of teachers.

With the small number of children that we have it is doubtful if we can secure State Aid for three teachers for any length of time. The children would have a far greater advantage if all were in one centralized school. In fact, if Grantham, Croydon and Springfield should unite into one district for school purposes and establish a good centralized school it would be a decided step forward in the welfare of the children's education. This would reduce the number of grades per teacher so that real accomplishment could be made.

The buildings are in fairly good condition considering the fact that the buildings are old and poorly arranged for lighting and school purposes.

Neighboring high schools will no doubt increase the tuition very substantially and accordingly the per capita cost for Grantham for those attending high school will be higher. Provision has been made for this in the budget.

The budget provides for some raise in teachers' salaries and for the increased cost of books and supplies. Should the new plan for State Aid be adopted by the legislature all of these increases would be largely absorbed by such aid and the local tax rate would not go up.

I am grateful to the teachers and pupils who have helped to make our schools run smoothly. It is discouraging at times to find it is so difficult to get little or no local interest in making minor repairs around the school buildings.

Respectfully submitted,

WILLIAM J. ENGLISH,

Superintendent of Schools.
